

## Construction details

Carcase drilling (all dimensions based on 18 mm carcass thickness)

Drill pilot holes for wood screws or Ø 5 mm holes for Euro screws. Runner positions allow for identical drilling of drawer fronts.

## Cutting List (for drawers)

Drawer width	Base panel		Back panel			
	* depth when using steel back	* depth when using chip/b back	width **	height standard drawer	height pan drawer	width ***
300	467	480	191,5	65,5	144	180
400	467	480	291,5	65,5	144	280
450	467	480	341,5	65,5	144	330
500	467	480	391,5	65,5	144	380
600	467	480	491,5	65,5	144	480
800	467	480	691,5	65,5	144	680
900	467	480	791,5	65,5	144	780
1000	467	480	891,5	65,5	144	880
1200	467	480	1091,5	65,5	144	1080

\* For 260 drawers = 257 (steel) 270 (chipboard)

\*\* For variable width = inside cabinet width - 72,5

\*\*\* For variable width = inside cabinet width - 84
